Richard Chen

# NEW WINTER INTENSIVE CLASSES!

## LAW PRACTICE MANAGEMENT:

This course is designed to provide practical skills on how to form and operate your own law firm, as well as how to succeed as an associate in larger law firm settings. The course opens with a look at the formation of law firms, how law firms are managed, recruiting for the law firm, business planning and startup funding. Law firm accounting is introduced, including discussions of billing, collections, associate compensation and profit distribution among partners, including methods for improving the firm's economic and long-term viability. Malpractice liability, malpractice insurance and ethical issues facing attorneys in day-to-day practice are also covered. Students also learn about issues of marketing, networking and client retention unique to legal services. The goal of this course is to prepare students for the actual practice of law by providing a behind-the-scenes look at how law firms are managed.

## Professor Selbak

- December 30, 31, January 2, 3, 4
- Classes will meet 9:40am to 12:30pm on Monday, Tuesday, Thursday, Friday and Saturday

# NEW WINTER INTENSIVE CLASSES!

## BUSINESS DEVELOPMENT FOR LAWYERS:

This course focuses on the important practical subject of business development for attorneys. Achieving skill in business development is often critical to success in private practice, whether in a large, medium or small law firm or as a sole practitioner. The course will emphasize that business development is not a series of random acts, but a process with specific steps that can be taken to help generate business. Students will learn about creating a vision for their practice, effective marketing strategies tailored to their individual talents and strengths, how to develop referrals, and how to create a system for business development.

### Professor Kollar

- December 30, 31, January 2, 3, 4
- Classes will meet 1:30am to 4:20pm on Monday, Tuesday, Thursday, Friday and Saturday
